PROFESSIONAL SUMMARY

IT Specialist and Full-Stack Web Developer with hands-on expertise in building and deploying web applications using PHP, Next.js, React, and C# (former). Skilled in managing hosting environments, domains and DNS, implementing RESTful APIs, and integrating tracking and traffic filtering systems. Experienced in IT operations, production monitoring, and delivering technical support in remote and hybrid teams. Additional background in performance marketing and Android development with Kotlin (MVVM, Room, Retrofit, Coroutines).

PROFESSIONAL EXPERIENCE

Meridian Media

August 2026 - Current

Lead IT Specialist

Remote

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Coordinated product management, inventory workflows, and order processing systems
- Providing technical support to the customers

Kodely

August 2026 - Current

Co-Founder & CTO

Remote

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Coordinated product management, inventory workflows, and order processing systems
- Providing technical support to the customers

Lumex Ltd.

June 2026 - Current

Lead IT Specialist

Hybrid

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Implemented tracking solutions (pixels, analytics, data flow) to ensure accurate performance

- Coordinated product management, inventory workflows, and order processing systems
- Monitored production environments and resolved hosting, domain, and deployment-related issues

Solidleads Ltd.

May 2026 - Current

IT Specialist

On-Site

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Implemented tracking solutions (pixels, analytics, data flow) to ensure accurate performance monitoring
- Monitored production environments and resolved hosting, domain, and deployment-related issues

ROI House

March 2026 - June 2026

IT Specialist

Remote

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Implemented tracking solutions (pixels, analytics, data flow) to ensure accurate performance monitoring
- Monitored production environments and resolved hosting, domain, and deployment-related issues

Traffbraza LLC

December 2025 - July 2026

IT Specialist

Remote

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed server-side hosting environments, including configuration, deployment, and maintenance
- Implemented tracking solutions (pixels, analytics, data flow) to ensure accurate performance monitoring
- Monitored production environments and resolved hosting, domain, and deployment-related issues

ROI House

July 2025 - January 2026

Affiliate Mediabuyer

Remote

- Launched and optimized performance-driven campaigns through Google Ads for affiliate offers
- Monitored campaign performance, budgets, and conversion tracking to maximize ROI and lead quality

Traffle Agency

January 2025 - November 2025

IT Specialist and IT Operations Manager

Remote

- Developed and deployed PHP-based, React-based, and Next.js-based websites integrated with internal affiliate and tracking and traffic filtering systems
- Managed hosting environments, server configurations, and technical infrastructure
- Oversaw IT operations to ensure smooth workflow, system stability, and timely project delivery
- Coordinated technical processes between development and marketing teams to maintain operational efficiency

Selcany.com, Kennzy.com & Hexamats.com - Solidleads Ltd. Side Projects

January 2022 - February 2023

Ecommerce Manager

Hybrid

- Managed technical operations of three e-commerce platforms, ensuring website stability, performance, and user experience
- Oversaw hosting environments, frontend updates, and platform maintenance
- Coordinated product management, inventory workflows, and order processing systems

Solidleads Ltd.

February 2021 - April 2025

IT Specialist and Affiliate Mediabuyer

On-site

- Developed and deployed PHP-based websites integrated with internal affiliate and tracking systems
- Managed hosting environments, server configurations, and technical infrastructure for performance campaigns
- Managed high-budget advertising campaigns across Google Ads, Microsoft (Bing) Ads, Meta Ads, Kayzen, UAC, and in-app traffic sources
- Optimized campaigns through audience targeting, bid strategies, funnel testing, and continuous performance analysis
- Executed App Store Optimization (ASO) strategies to improve app visibility, organic traffic, and conversion rates
- Monitored and scaled campaigns based on KPIs such as CPA, ROI, and lifetime value (LTV), ensuring efficient budget allocation

SM Consulting

September 2020 - January 2021

Full Stack Web Developer Intern

On-site

- Developed web applications using C# and .NET technologies, implementing business logic and application features
- Built and maintained responsive front-end interfaces using HTML, CSS, and JavaScript
- Collaborated with team members to implement new functionalities, debug issues, and improve overall code quality

Zipatto Smart Home Systems

December 2019 - February 2020

Full Stack Web Developer Intern

On-site

- Developed web applications using C# and .NET technologies, implementing business logic and application features
- Built and maintained responsive front-end interfaces using HTML, CSS, and JavaScript
- Collaborated with team members to implement new functionalities, debug issues, and improve overall code quality

Millisoft

June 2019 - November 2019

Information Technology Mentor

On-site

- Mentored students in web development fundamentals, guiding them through practical coding exercises and real-world project implementation
- Provided code reviews, technical feedback, and problem-solving support to improve students' programming skills and development practices

EDUCATION

Master's Degree in Computer Engineering	September 2021 - June 2023
Odlar Yurdu University	
Bachelor's Degree in Computer Sciences	September 2017 - June 2021
Azerbaijan Oil and Industrial University	

TECHNICAL SKILLS

Programming Languages:	PHP, JavaScript, Next.js, React.js, C# (former), Kotlin, Dart (former), Flutter (former)
Development Principles:	Clean Code, SOLID Principles, Object-Oriented Programming (OOP), Version Control (Git)
Web Development:	HTML5, CSS3, React.js, Next.js, Responsive Web Design, SQL, Supabase, REST API Integration
Hosting and Deployment:	Web Hosting Management, Domain and DNS Configuration, Production Deployment, Server and Infrastructure Monitoring, CI/CD (GitHub Actions, GitLab CI/CD), Vercel, Netlify
AI Tools:	ChatGPT, Claude, Gemini, Perplexity, Cursor, Antigravity, Grok
Tools:	Git, GitHub, Microsoft Office, Google Workspace, Figma, Jira, Trello, Notion, Monday, Slack, Microsoft Teams, Google Cloud Platform, Android Studio, Gradle
Mobile Development:	Android (Kotlin), MVVM Architecture, Room Database, Retrofit, Coroutines, RESTful APIs, Hilt / Dagger (Basic), Flow / StateFlow (Basic), Firebase, Material Design, LiveData, Data Binding, Google Play Console
Digital Marketing:	Google Ads (UAC), App Store Optimization (ASO), In-App Advertising, Conversion Tracking, Performance Monitoring (CPA, ROI, LTV)
